A STATEMENT BY MORTON

Chairman of Equitable Directors Explains the Alleged Padding of Society's Salary List.

NOTHING WRONG IN THE TRANSACTIONS

Widow of One Officer was Paid His Salary to End of Year—The First Clerk Employed by the Equitable, Has Been Paid \$3,500 a Year as a Pension for Some Time.

New York, June 25.—Paul Morton returned from Washington Saturday and resumed his work as chairman of the Equitable society. He was in conference during the morning with representatives of the expert accountants who are making an investigation of the Equitable affairs under his direction. Mr. Morton said through his secretary that he had not accepted any further resignations nor would he intimate when he intends to take such action. From this time until the end of the month, when he returns to Washington to formally sever his connection with the navy department, Mr. Morton will remain in town. He has indicated that he proposes to stay here all through the heated term-end vacations.

Concerning the men whose names were said to be in the salary list of the Equitable society though no longer in the service of the company, Chairman Paul Morton made public the following statement:

"Dr. E. W. Lambert was the first medical director of the Equitable. He died July 17, 1904, having served for 45 years as chief medical director. His salary was \$25,000 per annum and it was continued and paid to his widow up to and including December, 1904, since which time nothing has been paid.

"Dr. Edward Curtis was elected medical director in Sept. 1876 and was retired February 1904 on account of a stroke of paralysis but with the understanding that the society could avail itself of his services as consulting medical director. As medical director he received a salary of \$15,000 a year which was continued until Jan. 1, 1905, at which time, owing to his inability to perform active service, it was reduced to \$10,000 per annum. This sum is still being paid to him.

"J. E. Loring, registrar, was the first clerk employed by the Equitable. He served the society 45 years in positions of trust and for more than 25 years was chief of the society's security department. In Chicago. His salary was \$2,500 per annum, and on April 3d, 1903, he left the service of the society on account of ill-health, and his salary was continued as a pension.

"George H. Squire came with the society in September, 1879. His salary in 1904 was \$20,000. During August of that year he lost a leg, and temporarily was incapacitated for work.

STORMED THE BARRICADES

Pitched Battle in Streets of Lodz, Russian Poland Between Soldiers and Strikers.

171 KILLED AND HUNDREDS WOUNDED

Hospitals of City Filled to Overflowing and Many Injured Lying on the Floor—Troops Prevent Burning of Government Offices by Rioters—Disorder Anticipated at Warsaw.

Lodz, Russian Poland, June 25.—Since early Friday morning this city has been in a state of panic. The strike is general and all the factories and shops are closed. Barricades have been erected at many points, which troops stormed. Rifle volleys and revolver shots are heard continually.

The casualties up to noon Saturday, according to preliminary reports, are appalling total. So far as yet ascertained 130 persons were killed outright during the fighting of Friday and 41 more died in the hospitals during the night. Of the wounded 320 sustained only slight injuries which were attended to on the spot by the ambulance surgeons. All the hospitals of the city are filled to overflowing and owing to the insufficient number of beds many of the wounded are lying on the floors. All the shops, stores and factories are closed and business is at a complete deadlock. The rioters Saturday morning attempted to set fire to the government offices but were scattered by a strong force of troops.

Warsaw, Russian Poland, June 25.—Stephen Okrjela, the locksmith who threw the bomb into the Praga police station March 26, injuring six policemen, has been sentenced to death. The workmen threaten a general strike as a consequence and further serious disorder is anticipated.

The streets are heavily patrolled by Cossacks and infantry. A workman was murdered in the streets during the night for refusing to strike.

St. Petersburg, June 25.—According to advices received here the situation in Poland is again exceedingly serious. Censored dispatches from Lodz, though giving few details, indicate that fierce street fighting was in progress Friday between the military and the striking workmen, who barricaded the thoroughfares in various quarters of the city and offered resistance which the troops met with volleys. The list of dead and wounded pre-umably is heavy, but not even an estimate has been received here. Russian correspondents telegraphing that the streets are entirely in the hands of the military and the mob and that it is unsafe to venture out to obtain details.

It is not known whether the fighting was continued last night, but it is feared that order can be restored only at heavy sacrifice. Lodz has been in a turmoil for the past three days. The strike, which embraces 60,000 workers, appears to have entirely lost its economic nature and is now a vast political manifestation. All forms of public business activity have been suspended, the peaceful inhabitants remaining indoors in fear of their lives.

To Preserve Paul Revere's House.

Boston, June 24.—Prominent citizens of Boston have undertaken a movement looking to the purchase and preservation of the home of Paul Revere, which is situated in North square, this city. It is intended that the building which is now used as a tenement house will be restored to its original condition as nearly as possible. The house was built prior to 1681 and is the oldest in Boston, still standing in its entirety.

New Automobile Record.

New York, June 25.—Guy Vaughn, who started Friday at the Empire City race track at Yonkers in a second attempt to break the 1,000 mile automobile record, and covered 550 miles at 9.10 a. m. This is two hours, four minutes and 50 seconds ahead of the record established last April by Charles G. Wriggway at the Brighton Beach track.

For Methodist School at Manila.

Iola, Kan., June 25.—George E. Nicholson, a capitalist of Baldwin Kan., has announced that he had given \$10,000 for the establishment of a Manila training school for missionaries. The school will be under the direction of Bishop Oldham of India, bishop of the Methodist church, and will be known as the Florence B. Nicholson Memorial school.

Thought He Had Shot His Friend.

Chicago, June 25.—Frank R. McCamyon, a waiter, believing that he had shot and fatally wounded a friend and was liable to arrest, committed suicide. He had been quarreling with his wife, and when two friends interfered he fired at one, Marshal Marshall was unhurt, but McCamyon, believing otherwise, turned the revolver on himself, dying instantly.

STUDYING FRENCH NOTE

Officials of German Foreign Office Busily Engaged in Dissecting Premier's Answer on Morocco.

MANY POINTS OPEN FOR DISCUSSION

Main Difference Now Seems to be as to Whether the Two Countries Shall Have a Separate Agreement Previous to the Meeting of the International Conference—No Excitement Apparent.

Berlin, June 25.—The foreign office officials are busily engaged in studying the French note on Morocco, the unusual length of which will necessarily delay answering it. Emperor William's absence at Kiel, the foreign office says will cause no delay in the negotiations inasmuch as he is daily informed on all points and his decisions are promptly given.

As the study of Premier Rouvier's answer progresses the fact becomes evident that he has left many points open for discussion and from which further negotiations can continue. The greatest difference now seems to be in agreeing on whether Germany and France shall seek to reach a separate agreement before the meeting of the conference, thus eliminating many matters from international action. Germany apparently holds the view that it would be an act of discourtesy to the powers which have already agreed to attend the conference if she arranged any matters beforehand with France.

Official circles here continue to follow the affair with keen interest but without anything like excitement much less bellicose inclinations. They watch closely the movement of public opinion in France and while it is recognized that the French people at large have grown much less Chauvinistic toward Germany in the last few years corresponding with the waning influence of the nationalist-clerical-military combination in French politics, some anxiety still prevails in Berlin lest the leaders of the opposition to the French government again succeed in inflaming the passions of the people and arouse a storm which the republican leaders would be unable to withstand.

Stopped a Telegram.

London, June 24.—It is significant of the acuteness of the crisis still existing between France and Germany that the French government refused to transmit a telegram from a correspondent at Paris, in which it was stated that Premier Rouvier was adopting a firmer attitude toward Germany, based upon a promise of English support. This statement is quite true and already has had the effect to make the situation more critical than ever. This is the first time since the Deloured riot against the republic on the day of the funeral of President Faure that the government has interfered with telegrams.

For a Transvaal Revolution.

Wichita, Kan., June 25.—Dr. Epke R. De Waal, a Boer refugee, is here quietly working up interest in the Afrikaner bond a secret organization which has for its object the overthrow of the British supremacy in the Transvaal. He has little to say concerning his mission, stating that he is merely on a lecture tour. De Waal was a brigade commander in the Boer war and was captured in the Bermudas until the close of the war. He is under banishment from his native country for alleged lese majeste of King Edward.

Consulting Engineers to Meet.

Washington, June 25.—A meeting of the consulting engineers of the Isthmian canal commission was called Saturday to meet in Washington on September 1, and review all plans for the construction of the Panama canal and make recommendations to the commission. The consulting engineers are authorized to go to the Isthmus if they deem it necessary and minority reports are requested to be made. There are 4 members of the consulting board, a number of them being foreigners.

Bubonic Plague at Panama.

Panama, June 25.—A fatal case of bubonic plague occurred at La Poca Friday. The constant arrival of steamers from infected South American ports which are received at La Boca without any extra precautions being taken must be a source of contagion. The dead man had been working on board the British steamer Chili which the authorities of Guayaquil would not allow to enter that port.

Overcome by Gas.

Chicago June 25.—Six persons were overcome by gas in a boarding house kept by Mrs. Katherine Marla at South Chicago. All were unconscious and it was at first feared none would survive. Physicians, however, succeeded in resuscitating all of the six and said all would probably recover except George Marla and Mark Markavich. The gas came from open jets in the kitchen stove.

OTIS B. WEAVER & CO., PUBLISHERS
M. D. STEINER, BUSINESS MANAGER

Entered as second-class matter March 26, 1904, at the postoffice at Ada, Indian Territory, under the Act of Congress, March 3, 1879.

Put a collar on your dog, ere he is "pounded"—to death.

THE Ardmore scoop of the old time grafters was a beaut. Those who are not guilty we trust will be exonerated before the law and the people, but those whose hands have been tinted with theft money we hope will get what a thief deserves.

DON'T you worry about a member of the Mansfield, McMurray & Cornish law firm going to the penitentiary. A gang of shysters who are smooth enough to collect a \$750,000 lawyer fee, are smooth enough to spend that amount to escape a criminal's cell.

THE First National Bank of a flourishing Indian Territory town uses a rubber stamp on its stationery while the printer with patches on his pants, looks through the window at the piles of currency on the counter.—Ex.

THE Editor: First thing he is born: then after running the gauntlet of measles, mumps, chicken pox, he enters school. At the age of 10 he is a red-headed, freckle face boy and the terror of the neighborhood. At 12 he is a devil in a printing office. At 18 he acquires two cases of long primer, an army press, and is the editor of a newspaper. At 30 he is bald-headed stoop-shouldered and the father of a large family. At 35 he is a corpse in a cheap pine coffin, and as 500 delinquent subscribers file past his bier for the last look, they are heard to say, "He was a good fellow but he couldn't save his money."—Ex.

SOME good, sensible, sympathizing subscriber mailed us the following: "Editing a newspaper is a nice thing. If we publish jokes people say we are rattle-brained. If we don't we are fossils. If we publish original matter they say we don't give them enough selections. If we give them selections they say we are too lazy to write. If we don't go to church, we are heathens. If we do, we are hypocrites. If we remain in the office, we ought to be out looking for items. If we go out, then we are not attending to business. If we wear old clothes, they laugh at us. If we wear good clothes, they say we have a pull. Now, what are we to do? Just as likely as not someone will say that we stole this item from an exchange, but we didn't."

HE GOT HIS MAN.

Our city marshal, Mr. Hoag, who left on the 23rd in quest of one W. W. Goodman, returned Saturday the 24th and reports that his man is safe behind the bars at South McAlester.

The marshal, in company with some local officers, located their man in Poteau Bottom about three miles south of Howe, I. T. It was during the noon hour they found him sitting on the gallery of a farm house in the midst of a cornfield. The situation was such that it required a little play of strategy on the part of the officers inasmuch as any alarm would have enabled him to take advantage of the high corn in making his escape. The officers approached the house from different directions and were within a few feet of their man before he was aware of their presence. They carried him to Poteau, where was given an examining trial and bound over in the sum of \$500 to await the action of the grand jury at Ada.

It will be remembered that this man Goodman is charged with breaking into the store of the Frisco Mercantile Company, of Francis, on May 31 and succeeded in eluding the officers, although they trailed him with bloodhounds and made a diligent search for him. He confessed to the marshal that he did the work—carried off three pairs of shoes, two hats, two pairs of pants, a suit case, a lot of pocket knives, etc. He also told the marshal where he left the suit case containing a lot of the stolen goods, hidden, but a search was made, but as yet it has not been found. We understand that he will make no defence, but will plead guilty to the charge.

ESCAPED FROM JAIL.

The inmates of our city jail, consisting of Cass Murphy, Bunk Oliver and an Irishman calling himself John Smith, but whom the other inmates designated "Judge Townsend," were liberated Saturday night by parties on the outside breaking the locks. When morning dawned the officials found the prison to contain only a couple of pairs of tongs that belonged to the railroad shops and some broken locks.

Dr. Stephens was a visitor to our town Monday morning.

Don't forget the W. O. W. picnic-barbecue at Francis on June 28.

The hay ride accounts in some degree for the unusually small audience at church on Saturday night.

We understand the Children's Day exercises were beautifully conducted at the Methodist church Sunday and a good crowd attended.

Thomas Spelce, (Uncle Tom.) will leave Monday for his old home in Arkansas. He accompanies his granddaughter, Miss Bettie Williams, on her return home. He will be gone for a few weeks.

Quite a number of our young people enjoyed a "hay ride" of "the latest" on last Saturday night and we understand they met at the residence of Mr. Wilson, about three miles from town where they were entertained in a royal fashion until a late hour.

A BIG SWOOP.

Governor, Ex-Governor, Bankers, Lawyers and Marshall indicted.

The United States grand jury which has been investigating the Chickasaw warrant cases made its report to the court Saturday afternoon about 5 o'clock.

Several indictments were returned and filed in the presence of the grand jury. The indictments returned are original bills.

and because of the fact that no arrests have been made, nothing official could be learned as to who the parties were, but it is understood, and common rumor, that indictments were against B. H. Colbert, Kirby Purdom, Ex-Governor Palmer S. Mosley, Governor Ex-D. H. Johnson, E. B. Hinshaw, W. T. Ward, Melvin Cornish, J. F. McMurray, George Mansfield, T. A. Teel, S. M. White and others. The bonds of alleged parties, it is understood, will be fixed at \$5,000.

The allegations in the indictments are based on the alleged manipulation of tribal warrants. Conspiracy is also alleged. One or two of the accused parties are in the city.

COLBELT GAVE BOND.

Shortly after the grand jury made its report Saturday United States Marshall B. H. Colbert was placed under arrest and he immediately gave bond in the sum of \$7,500. It is learned that there are three indictments against him and his bond was fixed at \$2,500 in each case.

Marshall Colbert was seen by a reporter for the Ardmoreite but he had nothing to say concerning the arrest, nor did he care to discuss the charges against him.

HAS A SECRET MISSION.

Assistant Secretary of State, Loomis, Leaves
New York for Europe—Will Also
Receive Paul Jones' Body.

New York, June 25.—On a secret
mission for the state department for
which he was commissioned by Presi-
dent Roosevelt, Francis B. Loomis,
assistant secretary of state, sailed for
Southampton Saturday on the steam-
er Philadelphia.

Concerning the mission Mr. Loomis
would only say: "I am not only going
as special ambassador to receive
Paul Jones' body but also have been
commissioned by the president to
perform a secret mission for the state
department while abroad. I must de-
cline positively to state what my mis-
sion is." "Has it anything to do
with peace?" was asked. "I can say
nothing," he replied.

Mr. Loomis said he expected that his
secret mission would prevent him from
returning with the warship squadron,
which will bring the body of Admiral
Paul Jones, as he had expected to do,
but that he hoped to return in about
a month. Mr. Loomis added that the
exercises attending the departure of
the body of Admiral Jones from
France would probably be held on
July 7, or 8, in the American church at
Paris.

Washington, June 25.—The as-
signment of Francis B. Loomis,
as a special ambassador of the United
States to receive from the French
government the remains of John Paul
Jones will conflict in no respect with
the duties of the American ambassador
to France, Mr. McCormick, or with
those of the retiring ambassador, Gen.
Horace Porter. The appointment of
a special ambassador was made as a
mark of particular respect to the
memory of the great naval officer and
as a tribute of honor to the French
government for the interest it has
manifested in the recovery of the body.

Mr. Loomis will not return to the
U. S. with the remains of John Paul
Jones. So far as they are concerned,
his ambassadorship will terminate
with the reception of the body and its
transfer to the American squadron.
He has been commissioned by the
president, however, to make an in-
vestigation of the business methods
of the various diplomatic posts of the
United States with a view to bring-
ing about such reforms as may be
suggested by the inquiry in connection
with his own experience in the state
department. It is expected that this
mission will occupy him for perhaps
two months. His inquiry will not af-
fect in any way the conduct of the
diplomatic business of the embassies
and legations but merely have to do
with the administrative affairs.

It is not expected now that Mr.
Loomis will return to the state de-
partment to remain for any consider-
able time—and he may not return at
all—as assistant secretary of state.
That he will receive some appointment
at the hands of the president seems cer-
tain now but it has not been deter-
mined yet what it will be.

Kansas Convicted of Bribery.

Kansas City, Kan., June 25.—Frank
M. Campbell, member of the board of
education of this city, was convicted
by a jury in the district court on a
charge of accepting a bribe of \$412,
paid him by D. E. Gilhaus, who had
the contract for cleaning the mud from
the Armourdale schools after the flood
of 1903. The jury was out three
hours. Campbell was placed under
arrest, but was allowed to spend last
night at home, pending the filing of a
motion for a new trial and the fixing
of a bond Saturday morning.

American Girl Marries a Prince.

Paris, June 25.—The marriage of
Prince Henry Galard de Bearn et de
Chalais to Miss Beatrice Winans,
daughter of Mr. and Mrs. Ross Winans
of Baltimore, was celebrated at noon
Saturday in the Church of St. Clotilde.
There was a large and fashionable at-
tendance including Ambassador Mc-
Cormick and Mrs. McCormick and
many members of the old French aris-
tocracy. The groom is the head of
the ancient family of Bearn-Brissac.
A wedding breakfast followed. The
prince and princess received many val-
uable presents.

sorrow gnawing at her heart and with
friends ministering to her every need,
Mrs. Kate Wilburn is nevertheless un-
able to stop crying. For four days and
nights she has sobbed convulsively.

tack of crying which the doctors seem
unable to check, is wearing out the en-
ergy of the afflicted woman and at her
own request she has been taken to the
asylum for the insane at Cherokee.
